

**DRAG RACING HISTORY**  
TOLD BY THE PEOPLE WHO MADE IT HAPPEN

## **PROJECT 1320 – GET INVOLVED!**

**PROJECT 1320** produced by Quarter Mile Entertainment is an episodic documentary which will capture the history of drag racing – from the post World War II period to the end of the 1980s.

**PROJECT 1320** will feature interviews of the surviving pioneers as they tell the story from their unique, personal point of view. Some of today's heroes will be featured, but it will focus on yesterday's legends as they tell of their experiences and explain the **Who, What, Why, When, Where and How** of the sport's early days and how it grew. You will also see how a multi-billion dollar industry – the performance automotive aftermarket – grew with the sport as ingenious racers built new parts to make their race cars go faster, and then sold them to their fellow competitors.
